BLAZE A TRAIL 3.0 · AI & NLP TRACK

BlazeAI: Smart Contract Audit & Authenticity Verification

Instantly analyzing document integrity and translating legal risks into plain English — so you never sign blind again.

The Hidden Dangers in Modern Contracts

Opaque Legalese

Predatory terms and termination loopholes buried in dense, unreadable clauses.

Document Alterations

Fraudulent PDF modifications and tampered metadata go undetected by the naked eye.

Impersonation Risk

Counterparties signing with public email domains instead of verified company addresses.

Manual Auditing

Legal reviews take hours or days — when decisions need to happen in seconds.

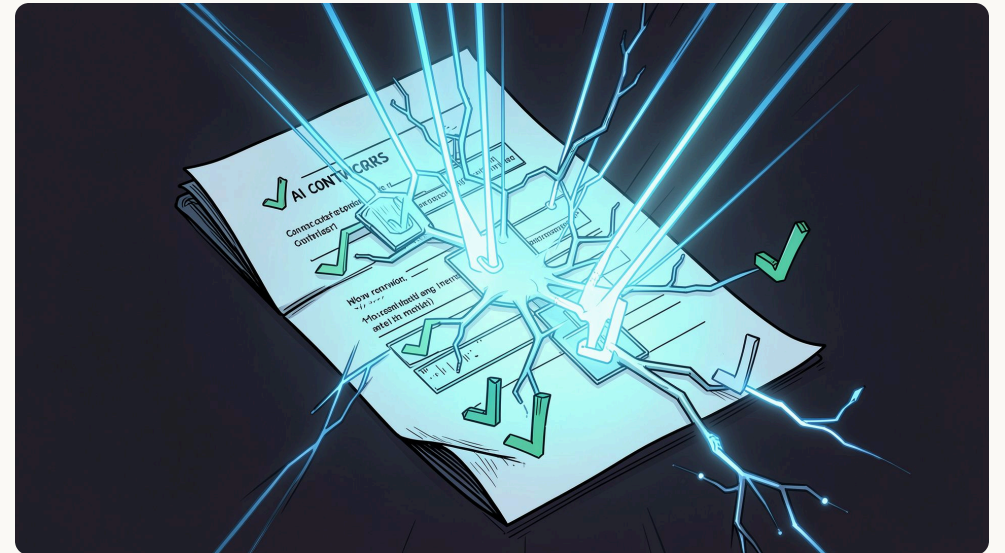

THE SOLUTION

Automated 10-Layer Verification Engine

BlazeAI is an end-to-end compliance audit system that calculates authenticity indexes, flags fraud triggers, and highlights risky clauses — all in plain English.

📄 **Verify document integrity in under 3 seconds.**

Complete Document Auditing Features

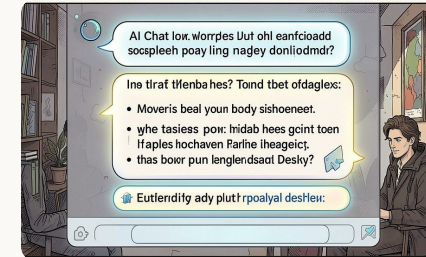

Authenticity Verification

Scans metadata health, digital signatures, duplicate similarity, and OCR stamps to confirm a document hasn't been tampered with.

Legal Risk Parsing

Automatically identifies high, medium, and low severity clauses – indemnity, liability limits, and termination triggers.

Plain English Translator

Converts dense legalese into clear, actionable takeaways any stakeholder can understand instantly.

End-to-End Analysis Lifecycle

From upload to actionable report in under 3 seconds — no legal expertise required.

Engineered with a Modern Tech Stack

Frontend

React 19 · Tailwind CSS v4 ·
Framer Motion

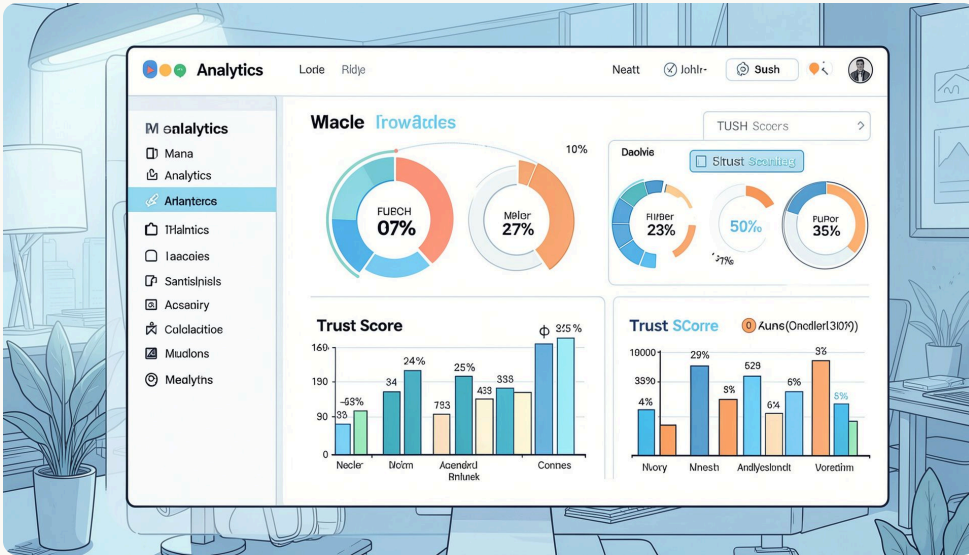

Backend

FastAPI · Python 3.14 · Uvicorn

AI Models

Gemini API · PyTorch · BERT NLP Classifiers

RESULTS INTERFACE

Interactive Audits & TrustScore Analytics

The BlazeAI dashboard transforms raw contract data into an instant, visual risk profile.

→ Circular Risk Gauges

At-a-glance authenticity and compliance scores.

→ Clause-Type Bar Charts

Visual breakdown of risk categories across the document.

→ Scam Probability Indicators

AI-calculated fraud likelihood with confidence intervals.

→ Downloadable PDF Reports

Share-ready legal summaries for teams and stakeholders.

BLAZE A TRAIL 3.0

Compliance Made Transparent

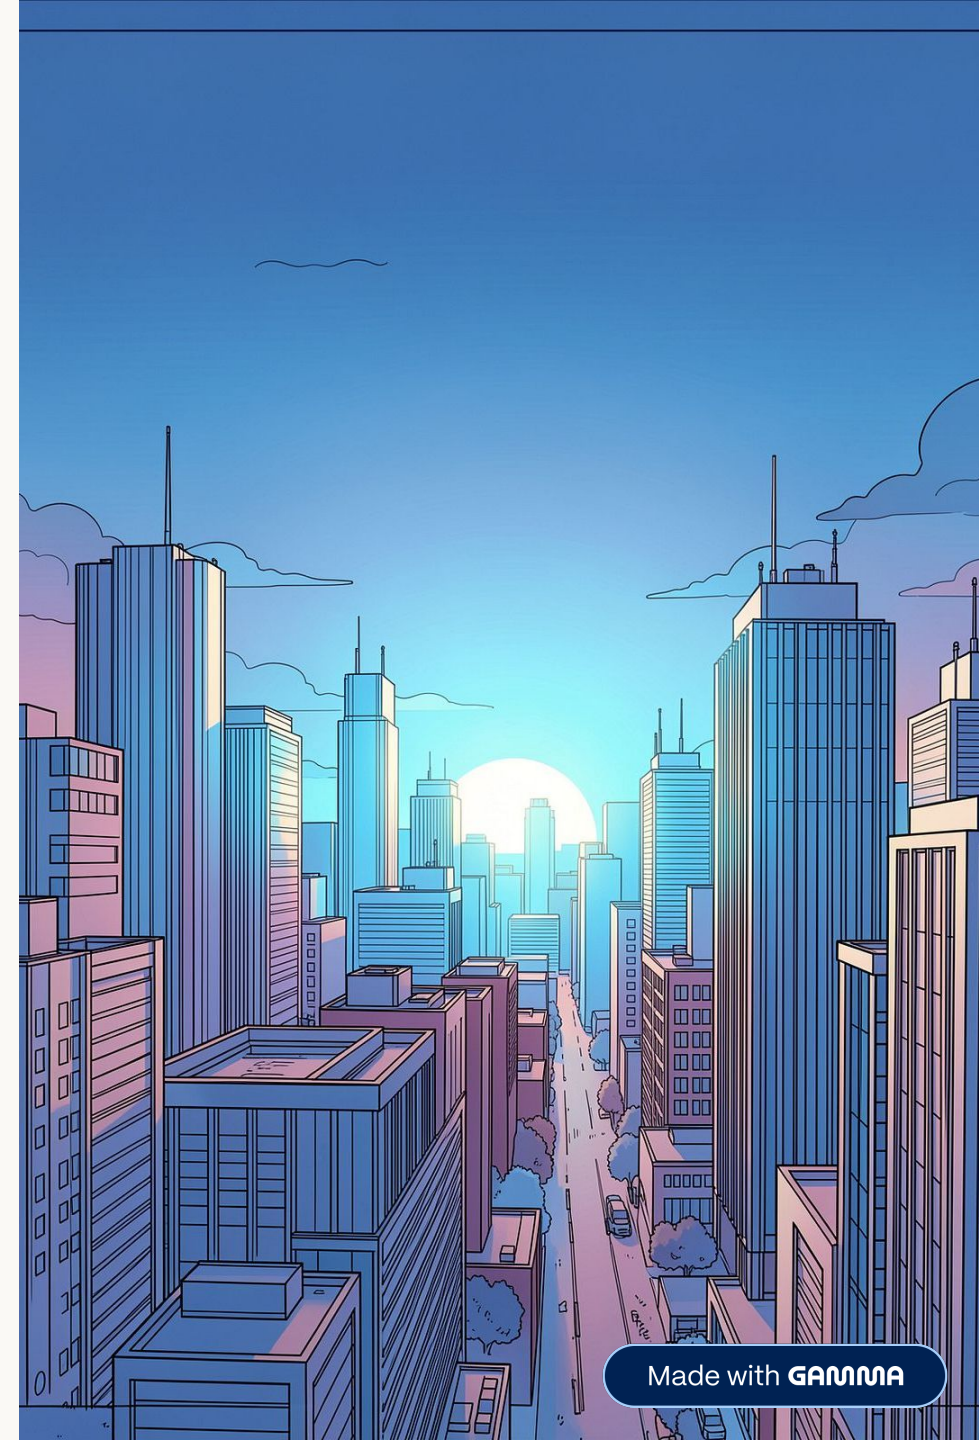

Built under the **AI & Natural Language Processing** track, BlazeAI demonstrates that automated contract compliance is not just possible — it's essential.

What's Next

Multi-language support, API integrations for DocuSign & Adobe Sign, and enterprise SSO rollout.
